### Telephone Storm Line

**508-862-INFO (4636)** for a  
recording of the most recent  
update.

### Important Safety Contact Numbers:

Call 911 for All Emergencies.

For all Non-Emergencies, call  
the Barnstable Police  
Department at 508-775-0812.

Report any power outages by  
calling EVERSOURCE  
at 1-800-592-2000.

For downed trees, please call  
Highway at 508-790-6330.

Cape Cod & Islands Red Cross  
Chapter can be reached  
at 508-775-1540.

## How can you help?

### Please stake your property

One of the important items one can do to help  
our plow drivers is stake the edge of your  
properties with plow stakes/reflectors. Plow  
stakes can be wood or fiberglass with  
reflectors on top or wrapped around the body  
of the stake. The reflective material needs to  
be high enough up the stake that it can be  
seen over the snow drift. The stakes should  
be driven into the ground as close to the edge  
of the property as possible. Generally we  
recommend placing them every 8-10 feet.  
Installing stakes is easier before the ground  
freezes, so we recommend you do it sooner  
rather than later.

**Please follow the advice of public  
safety officials.** When a driving ban is put  
into effect, it is for your protection. Please  
stay off the roads until given the all clear  
notice.

### Also:

- ◆ Make certain your vehicle is ready for  
winter driving.
- ◆ Reduce your speed. This is the number  
one cause of winter accidents.
- ◆ Please give plows and sanders the right of  
way and stay at least 50 feet back from  
each.

## 2018 Snow and Ice

**BARNSTABLE DEPARTMENT OF  
PUBLIC WORKS'  
SNOW AND ICE  
STANDARDS OF SERVICE**

The Department's goal during a storm is to remove snow to sufficient width and depth to allow the public to travel at reduced speeds throughout the town during and immediately after a storm. It is generally not possible for the Department to achieve and maintain bare pavement during a storm event.

To better manage our efforts and expectations of outcomes, the DPW has categorized winter storms and efforts into three categories of storm. They are loosely defined as follows:

**CATEGORY A:**

- ⇒ Most common type of event
- ⇒ Accumulation of 2"-18" over 24 hours
- ⇒ Snowfall of 1 inch or less per hour
  
- ⇒ Main roads will be cleared and corners pushed back- 8 hours after precipitation ends.
  
- ⇒ Secondary, or residential, streets cleared and corners pushed back - 16 hours after precipitation ends.
  
- ⇒ Sidewalks/Bike paths cleared - this effort will begin within 48 hours of precipitation ending.
  
- ⇒ Snow removal from business districts - The decision to conduct snow removal, from which villages, and the timing of that removal will be made by the Town Manager or his designee.

**CATEGORY B:**

- ⇒ Less common type of event
- ⇒ Accumulation of 18" to 24", spread over 24 hours, with snowfall of 1" per hour or less.
- ⇒ DPW will request parking ban from the Town Manager.
- ⇒ Heavy snow removal equipment (loaders and backhoes) will be diverted to roads, as 1-ton and smaller trucks are not effective in a Category B.
- ⇒ Main roads plowed as normal, cleared and corners pushed back - 24 hours after precipitation ends.
- ⇒ Secondary roads: Initial level of service to just allow for emergency service vehicles. Secondary roads will not be widened out with corners pushed back until at least 48 hours after the storm ends. Expect hard pack conditions on secondary roads.
- ⇒ Snow removal from business districts – The decision to conduct snow removal, from which villages, and the timing of that removal will be made by the Town Manager or his designee.

**CATEGORY C:**

- ⇒ Unusually large and intense storm.
- ⇒ Accumulations greater than 24", spread over 24 hours or longer, with snowfall of 1 inch per hour or more; OR, a storm with less total accumulations, but with extended periods of snowfall greater than 1" per hour.
- ⇒ Priority: hospital routes, assisting Police and Fire with life safety issues and the largest and busiest of the main roads.
- ⇒ DPW will request parking restrictions from the Town Manager. Abandoned vehicles stuck on main roads will be handled by the Barnstable Police Department.
- ⇒ Snow removal equipment (loaders, backhoes, etc.) will be diverted to roads as necessary, as 6-wheeler dump trucks and smaller trucks are not effective in Category C.
- ⇒ Plowing will be slow due to white out conditions and drifting snow.
- ⇒ Secondary roads and smaller main roads will be left until the highest priority main roads are opened. Expect "hard pack" conditions on all roads.
- ⇒ Once main roads are opened, DPW efforts will be split between widening main roads and opening secondary roads. Initial level of service for secondary roads will be to open for emergency vehicles. Secondary roads will not be widened out with corners pushed back until at least 4 days after precipitation ends.
- ⇒ Parking lots and sidewalks will be left until well after the storm ends.
- ⇒ Snow removal from business districts – The decision to conduct snow removal, from which villages, and the timing of that removal will be made by the Town Manager or his designee.
